# How to Start Tally ERP 9 Software on Computer

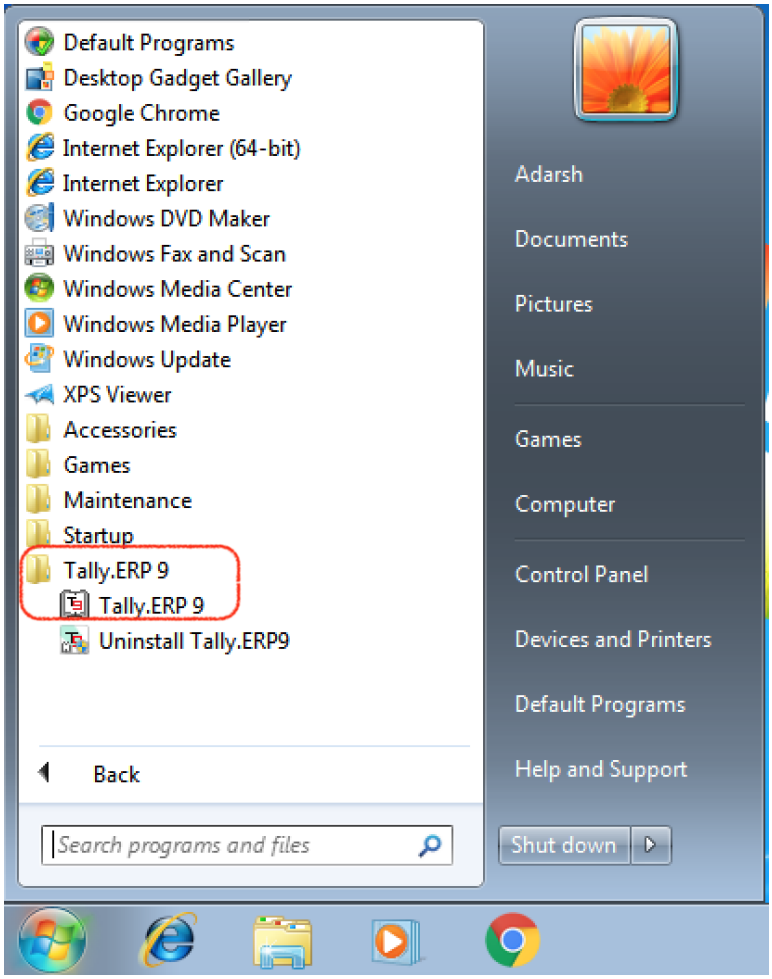
In this Tally Tutorial, you will learn how start Tally ERP 9 software on computer and quite or close tally after completion of work on tally software.

## How to start Tally ERP 9

After successfully installation of Tally ERP 9 on windows or Mac computer, you can start Tally ERP 9 by using one of the following method.

Double click on Tally ERP 9 icon from computer desktop or

Follow the Path: Start > Programs > Tally.ERP 9

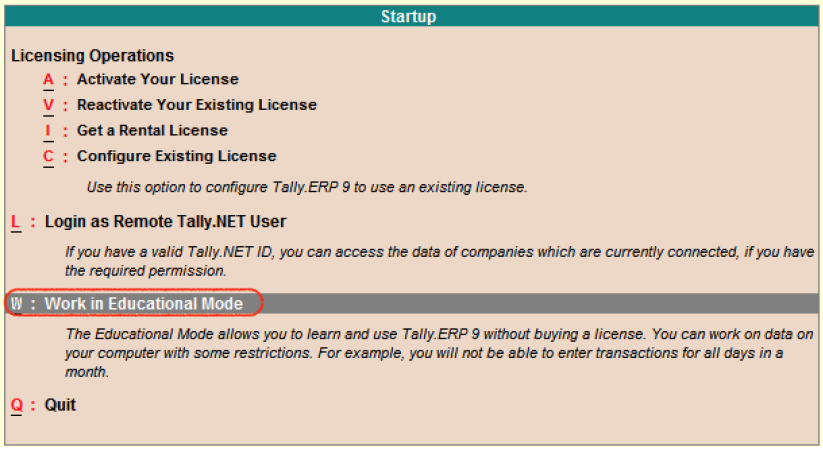


The startup screen appears with the options

1. **Licensing Operations** : To activate your licence, press A from your keyword and enter

2. **Login as remote Tally.Net user** : If you valid Tally.Net User id and password of a company connected, you can login as remotely.
3. **Work in Education Mode** : Use Work in education mode for practice purpose. This mode allows to work with tally without buying the license with some restrictions.
4. **Quite** : Click on Quite option to close the Tally.

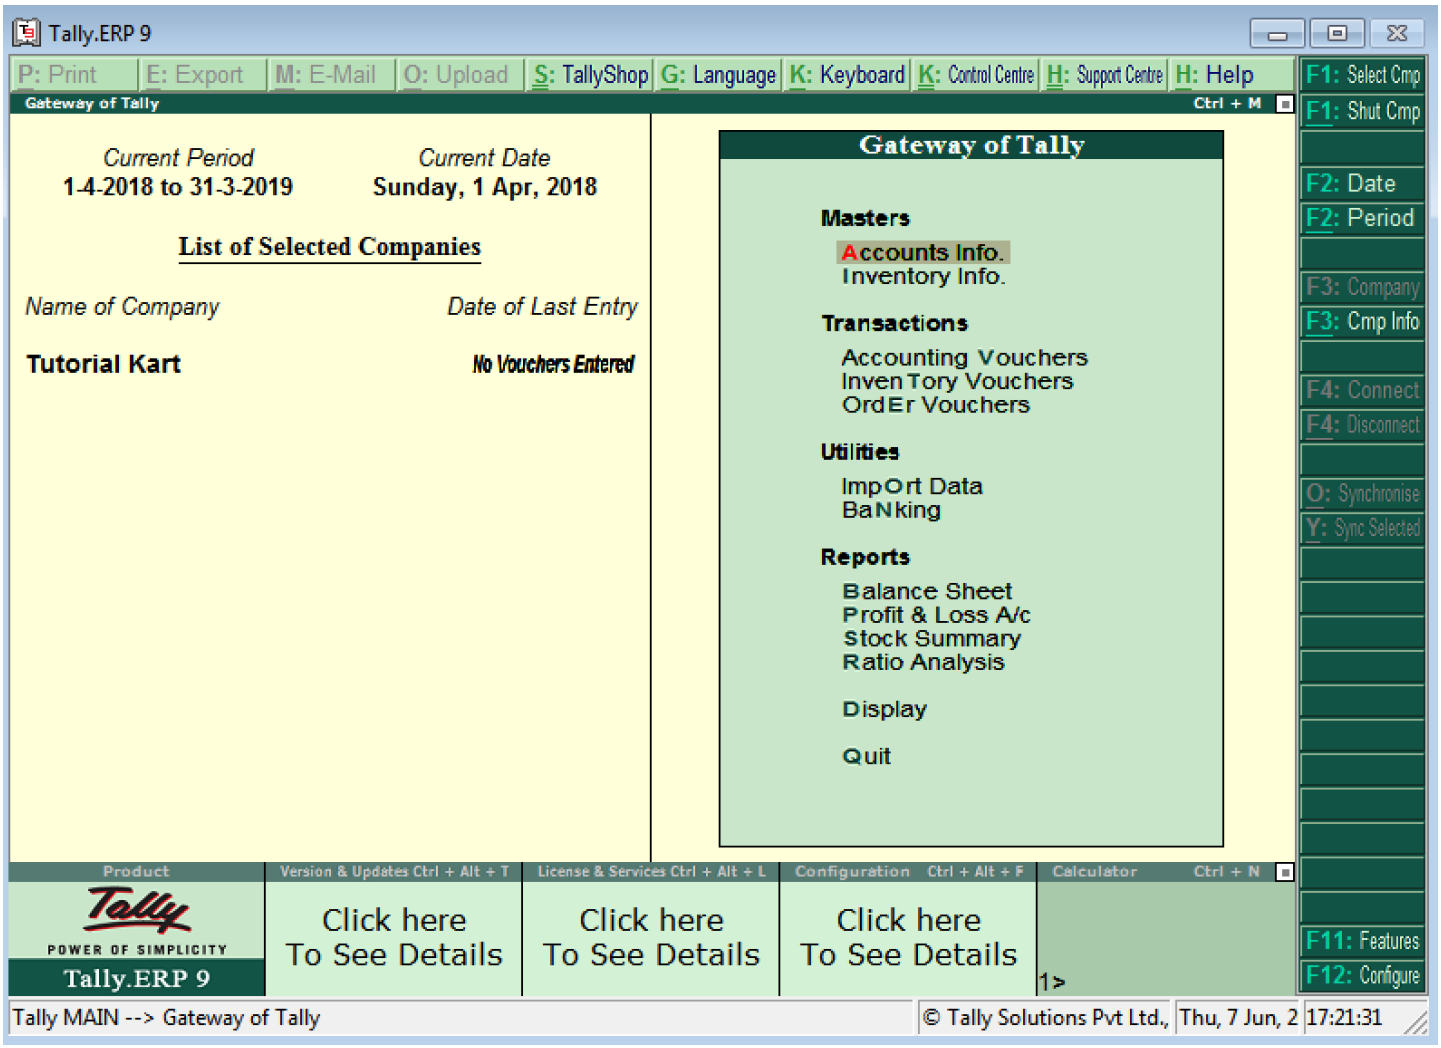
Here we are using Tally ERP 9 software for educational practice purpose, so we choose the option work in education mode.



Note: If you are using Tally for business purpose, you should purchase the licence and activate using the purchased license key.

After log in to Tally, the welcome screen of Tally ERP 9 power of simplicity displays on the system.

After loading the Tally.ERP 9 software on your system, the gateway of tally displays on the screen.



From this screen you are allowed to work with the Tally ERP 9.

## How to Close/ Quit Tally ERP 9

After you work with Tally ERP 9, you can quit Tally ERP 9 screen, but you need to close all the screen before shut down the Tally.

To quit Tally ERP 9, you can use any of the following method.

- Press ESC key from your keyword until you see the confirmation message QUIT: YES/ NO, Press Y from your keyword to Quit Tally ERP 9.
- You can quit Tally.ERP 9 without confirmation message by pressing Ctrl+Q buttons from Gateway of Tally.
- Alternatively click on quit option which is available on right top menu.
