

# How to Create Scrum Board in JIRA?

## Steps to create JIRA Project with Scrum Board

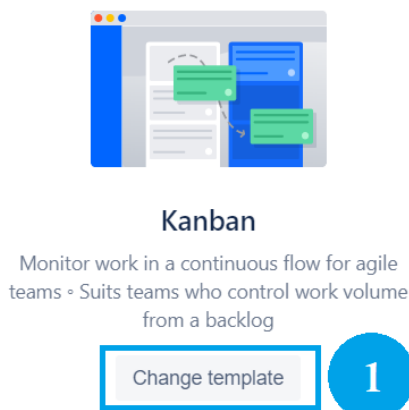

### Step 1

Click on the down arrow button next to the project. Then click on the Create Project button.

A new window appears to create the project.

### Step 2 – Change template

### Create project

Name

> Advanced

Create

A list of classic templates will appear. Scrum template should be in the list of classic template. Scroll and find it, click on **Select** button for Scrum template.

Scrum template will be selected for your project.

**Scrum**

Manage stories, tasks, and workflows for a scrum team • For teams that deliver work on a regular schedule

Change template

## Create project

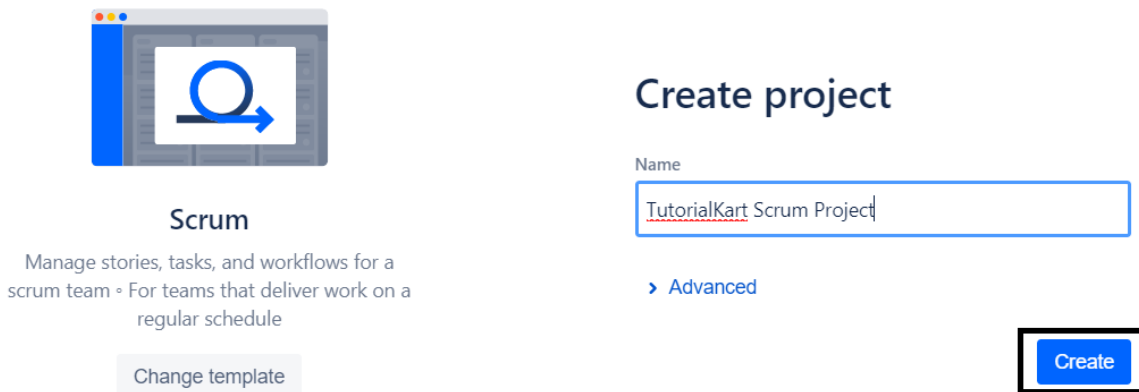

Name

> Advanced

www.tutorialkart.com

Create

Enter a project name for the Name field and click on Create button.

**Scrum**

Manage stories, tasks, and workflows for a scrum team • For teams that deliver work on a regular schedule

Change template

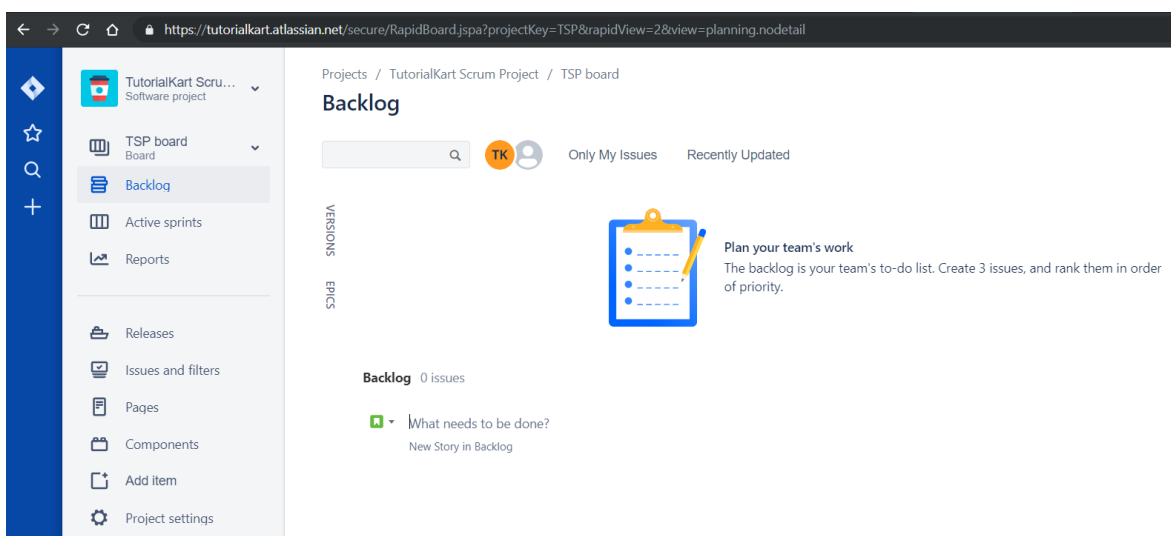

## Create project

Name

> Advanced

Create

Once you click on the create button, a JIRA project will be created with Scrum board and will be opened in the browser as shown below.

Projects / TutorialKart Scrum Project / TSP board

## Backlog

Only My Issues Recently Updated

Plan your team's work  
The backlog is your team's to-do list. Create 3 issues, and rank them in order of priority.

**Backlog** 0 issues

- What needs to be done?  
New Story in Backlog

## Summary

In this [JIRA Tutorial](#), we have successfully created a JIRA Project with Scrum board in JIRA Tool.
