

# Define Foreign Currency Valuation Method in SAP

In this SAP tutorial you will learn how to define foreign currency valuation method in SAP. In our previous tutorials we have learned how to [define account for exchange rate differences](#) in SAP.

It is recommended to refer previous configurations

- [How to check exchange rates](#)
- [Define translation ratios for currency translation](#)
- [How to maintain exchange rate](#)

## Foreign Currency Valuation Method

You can define valuation methods by using one of the following navigation method.

- • Transaction code: – **OB59**
- Menu path: – **SPRO** –> **IMG** –> **Financial Accounting** –> **General Ledger accounting** –> **Business Transactions** –> **Closing** –> **Valuate** –> **Foreign Currency Valuation** –> **Define valuation methods**.

**Step 1)** Enter [SAP T Code](#) “OB59” in the SAP command field and enter.

**Step 2)** On change view valuation methods overview screen, click on new entries button for maintaining the foreign currency valuation method in SAP as per organizational requirements.

**Step 3)** On valuation methods new entries screen, update the following details.

- **Valuation method:** – Enter the four digits key that identifies the foreign currency valuation method in SAP.
- **Description:** – Update the descriptive text of an valuation method.
- **Valuation procedure :** – Choose the appropriate valuation procedure as per the requirements.
  - Lowest Value principle: – By choosing this option, the SAP system calculates the exchange rate differences valuation based on the lowest rate of two.
  - Revalue only: – By choosing this option, system considers the revaluation as income.
  - Document Type: – Update the document type. For e.g SA (G/L Account Document).
- **Exchange Rate Determination :** – Update the exchange rate type for debit balance and credit balance.
  - Minimum difference: – If you set any minimum difference amount, the system will not re-valuate the currencies up to the given minimum difference amount.
  - Select **exchange rate** to be considered either from account account balance or invoice reference.

After updating all the required details, click on save button and save the configured valuation methods details.

Successfully we have defined *foreign currency valuation method in SAP*.
