You can define new relationship category by copying from existing standard relationship category, so all the settings will be copied to new relationship category.

Change View "Relationship Categories": Overview

The screenshot displays the SAP Change View interface for 'Relationship Categories'. The top toolbar includes icons for 'New Entries' and other functions. The 'Dialog Structure' pane on the left shows a tree view with 'Relationship Categories' expanded. The main area shows a list of relationship categories with columns 'RelCat' and 'Title'. The entry 'BUR001' is selected, and a red arrow points to it from the 'Dialog Structure' pane. The URL 'www.tutorialkart.com' is visible in the top right corner.

RelCat	Title
BUR001	Contact Person Rel.ship
BUR002	Act. Partner Relationship
BUR003	Shared Living Arrangement
BUR004	Marriage
BUR006	Alias (Identity)
BUR010	Employee Relationship
BUR011	Responsible Employee
BUR013	Replacement Relationship
BUR020	Department
BUR021	Parent-Child Relationship

No. in each set

Cardinality :

Standard Reltnshp

Role Categories

BP Role Cat.(Partner1)	<input type="text"/>
BP Role Cat.(Partner2)	<input type="text"/>

Business Partner Categories

Partner 1	Partner 2
<input checked="" type="checkbox"/> Organization	<input type="checkbox"/> Organization
<input checked="" type="checkbox"/> Person	<input checked="" type="checkbox"/> Person
<input checked="" type="checkbox"/> Group	<input type="checkbox"/> Group

After updating/changing the copied details, press enter to continue and choose the option "copy all" to copy the details from existing relationship category to new relationship category.

Change View "Relationship Categories": Details of Selected Set

The screenshot shows the SAP FSCM configuration interface for 'Relationship Categories'. The main window title is 'Relationship Cat.' with the ID 'ZUZ900'. A pop-up dialog titled 'Specify object to be copied' is displayed over the 'General Data' section. The pop-up contains the text: 'The entry to be copied has dependent entries', the URL 'www.tutorialkart.com', and the instruction 'You can copy the entry with all dependent entries, or just the entry itself.' There are three buttons: 'copy all' (highlighted with a red dashed box), 'only copy entry', and 'Cancel'.

Dialog Structure:

- Relationship Categories
 - Category -> Response
 - Category -> Calling A
 - Category -> Views
 - Relationship Cat. ->
 - Relationship Cat. ->
 - Category -> BP Role

General Data:

Description: From BP1's View, Has Department

Semantic Checks:

- Time Constraint: No time constraint
- No. in each set:
- Cardinality: :
- Standard Reltnshp

Role Categories:

- BP Role Cat.(Partner1):
- BP Role Cat.(Partner2):

Business Partner Categories:

Partner 1	Partner 2
<input checked="" type="checkbox"/> Organization	<input type="checkbox"/> Organization
<input checked="" type="checkbox"/> Person	<input checked="" type="checkbox"/> Person
<input checked="" type="checkbox"/> Group	<input type="checkbox"/> Group

A message displays as "Number of dependent entries copied" to new relationship categories in SAP.

The screenshot shows an SAP 'Information' message box. It contains an information icon, the text 'Number of dependent entries copied:', and the value '14'. At the bottom, there are icons for 'OK' (checkmark) and 'Help' (question mark).

Click on save icon and save the configured details in SAP FSCM.
